## PEACE OF EDEN SANCTUARY OF DIVINE HEALING

Our Divine mission and purpose is to provide a sanctuary, a safe haven, and environment where the healing power of Mother Sun Natures Everliving God, The Great Central Spiritual Son may freely exist and be fully experienced. A fertile medium in which the Heavenly Seed of happiness, peace, balance, joy, hope, love, and equality can be gently sown. And when nurtured, will grow into that blessed Paradise, that in silent prayer, we have all desired in our heart for so long. In our devotion we recognize that it is a high honor and privilege to fullfill the sacred trust invested in us by our creator. To help Preserve and protect this path to spirit-jewel freedom. To help build this rainbow bridge into paradise, serving as guardians on this magical, mystical journey into the unknown; this celebration of the Great Mystery, Life's greatest treasure, deepest purpose, and most exciting adventure.

This Sanctuary is an ideal place Where an individual, in his or her own way, can freely express their relationship with and their own conception of that which is often called God.

May truth be our shield; our defence, the double edged sword of reality; and our intent is loving justice.
